for

## Gold King Mine Release A8K9

CO-COEM-I002

Operational Period

Date From:	8/20/15	Date To:	8/23/15
Time From:	7:00	Time To:	7:00

### UNIFIED COMMAND

EPA: Greg Weigel Craig Myers

STATE OF CO: David Osborn Trevor Denney

SUIT: Kathi Gurule Mick Souder Tom Johnson

LA PLATA CO: Butch Knowlton Tom McNamara

City of Durango, Agency Representative - Terry Hoecker

CDPHE, Agency Representative - Pat Pfaltzgraff

Colorado OEM, Agency Representative - Bruce Holloman

San Juan County, Agency Administrator - Jim Donovan

Ute Mountain Ute Tribe, Agency Administrator – Scott Clow

1. Incident Name Gold King Mine Release A8K9RV	2. Operational Period to be covered by IAP (Date/Time) From: 8/13/2015 0700 To: 8/20/2015 700	CG IAP COVER SHEET
3. Approved by Incident Commander(s):		
<u>ORG</u>	<u>NAME</u>	
EPA	Craig Meyer, Greg Weigle	
State of CO	David Osborn, Trevor Denney	
La Plata County	Butch Knowlton, Tom McNamara	
Southern Ute Tribe	Kathi Gurule, Mick Souder, Tom Johnson	

## INCIDENT ACTION PLAN

The items checked below are included in this Incident Action Plan:

### Table of Contents

- ICS 202 (Response Objectives)
- ICS 203 (Organization Chart)
- ICS 204 (Assignment Lists)
- ICS 205 (Communications Plan)
- ICS 205a (Communications List)
- ICS 206 (Medical Plan)
- ICS 207 (Incident Organization)
- ICS 208 (Site Safety Plan)
- ICS 230 (Meeting Schedule)
- Map
- Weather forecast

<b>Incident Name</b>	<b>Gold King Mine Release</b>
<b>Operational Period:</b>	<b>72 Hours (Day Ops Only)</b>
<b>Prepared By:</b>	<b>lChavez</b>
<b>Date:</b>	<b>8/19/15</b>

<b>1. Incident Name:</b> Gold King Mine Release	<b>2. Operational Period:</b> Date From: 8/20/15 Time From: 7:00 am	<b>Date To:</b> 8/23/15 <b>Time To:</b> 7:00 am
--	---	--

#### **Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:**

If new to the area the altitude can affect your health and endurance. The use of sunscreen, taking frequent breaks and staying hydrated can reduce the effects.

While you do it every day, driving is probably the most dangerous thing you will do today. Please watch for wildlife, avoid distracted driving (texting and talking), wear your seatbelt and obey all traffic laws. Share driving duties with co-workers when possible. If driving long distances take breaks, get out, stretch and walk around. Be patient, tourist, farming, road construction and other activities may slow traffic speeds.

#### **Mine Ops (Note):**

Due to the remote location, altitude and narrow unstable roads create a dangerous environment. Continue to keep good communication on traffic movement, use spotters when backing up or turning around, maintain situational awareness, stay hydrated and monitor work/rest for heavy exertion tasks. All visitors to the mine shall attend the site safety brief prior to entry.

#### **UTV Operation:**

Keep speed to maximum of 10mph, ensure all operations attend Coast Guard training, radio communication for traffic control, use seat belts and a spotter while reversing.

The Emergency Response Peer Support team offer trained peer staff with whom you can talk to on a private basis, either in person or over the phone, when you feel stressed. Come and relax at the CISM Rest House. You can use the Rest House to take a nap, have snacks, meditate or just chat.

Please report any accident, injury, or illness to the safety officers. Also report near misses; lessons learned may save someone else in the future.

#### **4. Site Safety Plan Required? Yes**

Approved Site Safety Plan(s) Located At: Gold King Mine (mine operations), Combined water & sediment sampling health and safety plan is under development (8/11/15-EPA IMT SO arrival pending continued work)

## Gold King Mine Blowout Animas River Overview Map

For Internal Use Only

## **Contract Field Talking Points**

### **What are you doing?**

I am performing environmental sampling in support of the Animas River Unified Command.

### **Contract personnel are free to explain standard operating procedures:**

- gloves are used to preserve sample integrity, they are not required for person protection
- explain preservation steps
- explain how to sample, etc.

### **How do I get more information?**

## Government Field Notes

### What are you doing?

On August 5, the Gold King Mine released water that was held above the mine tunnel, spilling about 3 million gallons of mine waste into Cement Creek a tributary of the Animas River. Even though the majority of the mine water from the event has passed, both EPA and the Colorado Department of Public Health and Environment continue to monitor the situation by sampling water and sediment to determine the long term course action.

### Is it safe to use the river?

The data indicates that the river has returned to stable conditions that are not a concern for human health during typical recreational exposure. There will be some discoloration of the water when the sediment is disturbed, this discoloration does not pose an immediate health risk. The San Juan Basin Health Department concurs with the state health department findings, and advises that there are no adverse health effects from exposure to the water and sediment during normal recreational use (incidental or limited exposure). The San Juan Basin Health Department advises the public to avoid areas with orange sediment or discolored standing water. Further, anyone coming in contact with any orange sediment or discolored standing water should wash with soap and water.

## Animas River Health Advisory

The Colorado Department of Public Health and Environment has collected and analyzed water quality and sediment from the Animas River. The data indicates that the river has returned to stable conditions that are not a concern for human health during typical recreational exposure. There will be some discoloration of the water when the sediment is disturbed, this discoloration does not pose an immediate health risk.

The San Juan Health Department concurs with the state health department findings, and advises that there are no adverse health effects from exposure to the water and sediment during normal recreational use (incidental or limited exposure). The San Juan Basin Health Department advises the public to avoid areas with orange sediment or discolored standing water. Further, anyone coming in contact with any orange sediment or discolored standing water should wash with soap and water.

The Colorado Department of Public Health and Environment will continue to test water and sediment routinely and will respond quickly to any potential issues. Visit the state health department website for data and updates. The San Juan Basin Health Department will remain in contact with state health department and will provide any updates and public health recommendations as necessary.

**FOR IMMEDIATE RELEASE**

**All Media Contacts for Silverton and San Juan County to be  
channeled through Gold King Mine Release Joint Information Office**

Media Contact streamlined to speed information dissemination.

Monday, August 17, 2015

Durango - The Gold King Mine Release Joint Information Office (JIC) will be facilitating all media contacts and interview requests for Silverton and San Juan County concerning the Gold King Mine Release. Media may contact the JIC by calling 970-812-3351 or email at [GoldKingMinePIO@gmail.com](mailto:GoldKingMinePIO@gmail.com) .

Whereas there are a small number of public information personnel stationed in the Silverton area, there is a fully staffed JIC at the Durango Unified Command Post. By routing contacts and requests through the JIC, we can expedite information requests and connect members of the media with the people who can answer their questions in a more timely manner.

Public Information Officers for Gold King Mine Release Unified Command are available to answer questions, arrange for interviews and assist media working on Gold King Mine Release story.

Michael Davis, PIO/JIC Manager

## Incident Within an Incident Organizational Chart

### Accident or Injury Incident

In the case of an EMS incident that occurs within our incident, this will be the structure. If the incident involves an EPA employee or contractor, EPA Incident Staff will assume control of the incident, for all other staff secondary names will assume the role.
